Annual Conference in Norman—Break Out Season Speaker

The mission of the Oklahoma Society of Professional Engineers is to promote the ethical and competent practice of engineering, advocate licensure, enhance the image of the profession and to advance the common good. Each June, OSPE hosts the Oklahoma Engineering Conference for Oklahoma’s engineers, a two day event filled with education and networking.

“Go Home Safely” was the topic that Brenda and Kurt Harms, Chief, Right-of-Way & Utilities Division, addressed as break out session speakers on Friday morning. This presentation gave the audience a better understanding of why you need to call before you dig and how Call Okie can help with planning and implementing construction projects safely.
